1. This application is in condition for allowance except for the following formal matters:

In the claims:

Claims 9-15 are objected to because of the following informalities:

In claim 9, line 2, "Claim 1" should be changed to -- Claim 6 -- for proper claim dependency since claim 9 is directed to a communication method, and claim 1 is directed to a communication system.

In claim 12, line 1, "VPN" should be changed to -- virtual private network -- or -- Virtual Private Network (VPN) -- for proper claim language recitation.

Appropriate correction is required.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Saigo et al., Sun et al., and Jorgensen '915, '885, '246 & '629 are additionally cited to show the common feature of session management utilizing virtual tunnel for data communication similar to the claimed invention.
